is in every section has to be stated and laid out in the title, but the title has to be drafted in such a way as to call attention to what the subject matter of the bill is. So if there's an important or significant part of this bill which is not expressed in the title, and that does not mean you have to itemize and detail it, but you have to give some language in the title that calls attention to that aspect of the bill. If that is not done, the bill will be struck down because the title does not contain the necessary information. I think what Senator Abboud has said is generally correct, and I think it's good that he made it clear what he meant when he was talking about subject matter, not more than one subject.

SPEAKER KRISTENSEN: Senator Pedersen, you have the opportunity to close if you'd like. Waives closing. The question before the body is the advancement of LB 611. All those in favor say aye. All those opposed say nay. It is advanced. Items for the record, Mr. Clerk.
